SHADAB AHMED

DATA ENGINEER · SEB
Stockholm, Sweden

PROFILE

Data engineer at SEB building data systems for Financial Crime Prevention. I develop and scale data pipelines for transaction monitoring, with a focus on reliable and high-quality data delivery across cloud and on-prem environments.

Google Cloud Professional Data Engineer Certification
In progress - Target completion 2026

EXPERIENCE

Data Engineer — Mar 2024 - Present
SEB · Financial Crime Prevention

- Build and scale transaction-monitoring data pipelines for high-volume event processing.
- Implement data quality controls, reconciliation checks, and monitoring guardrails.
- Develop reusable cloud infrastructure patterns and standardize delivery workflows.
- Enable self-service data creation through schema and test-data generation tooling.

Tech Trainee — Sep 2023 - Feb 2024
SEB · Tech Programme

- Strengthened practical foundations in data engineering, platform services, and automation.
- Worked with cross-functional teams to translate business needs into structured technical solutions.

Support Agent — Apr 2017 - Aug 2023
Visma · Part-time

Master Thesis Student — Jan 2023 - Jun 2023
IBM

- Researched net-zero transition implications for banks and enterprise IT strategy.
- Published thesis with recommendations for scalable and sustainable IT decision-making.
- Research publication: The Transition Towards Net-Zero Emissions: Implications for Banks and Their IT Strategies

ACADEMIC BACKGROUND

KTH Royal Institute of Technology
Master's degree, Industrial Management
2023

KTH Royal Institute of Technology
Civilingenjorsexamen, Informationsteknik
2023
