

SHADAB AHMED

DATA ENGINEER · CAG MER CONSULTING · KTH
Stockholm, Sweden

PROFILE

Data Engineer Consultant at CAG MER Consulting, focused on building scalable and dependable data solutions. Previously at SEB, I developed pipelines and platform capabilities for Financial Crime Prevention and transaction monitoring, working with large-scale data and transformation logic.

I bring hands-on experience in GCP, automation, and maintainable platform engineering. I value clean code and a builder mindset, defining “done” as documented and automated where possible. Curious by default, I am biased towards simplicity.

Google Cloud Professional Data Engineer Certification

In progress · Target completion 2026

EXPERIENCE

SEB Data Engineer Mar 2024 - Aug 2026
SEB · Financial Crime Prevention

- Designed and scaled data pipelines and ETL workflows for high-volume data processing and transformation.
- Defined infrastructure as code and reusable patterns for consistent, scalable platform provisioning.
- Evolved the data platform through GCP migration and cloud-native data processing.
- Improved reliability and security through CI/CD, automation, and consistent unit testing.

SEB Tech Trainee Sep 2023 - Feb 2024
SEB · Tech Programme

- Completed SEB’s six-month Tech Trainee Programme, combining a full-time role with structured development, mentoring, and cross-functional learning.
- Gained broad exposure to SEB’s tech organisation through hands-on work, business challenges, hackathons, and structured programme activities.

Visma Support Agent Apr 2017 - Aug 2023
Visma · Part-time

IBM Master Thesis Student Jan 2023 - Jun 2023
IBM

- Researched the impact of net-zero transition on banking and enterprise IT strategy, based on qualitative insights from leading Swedish banks.
- Published thesis with recommendations for scalable, sustainability-aligned IT decision-making.
- Research publication: [The Transition Towards Net-Zero Emissions: Implications for Banks and Their IT Strategies](#)

ACADEMIC BACKGROUND

KTH Royal Institute of Technology
Master's degree, Industrial Management
2023

KTH Royal Institute of Technology
Civilingenjörsexamen, Informationsteknik
2023
